Dear Mr. DeVecht,

I wanted to share my experience with College Planning Advisors of Michigan's services:

My daughter and I attended one of your free meetings which by the way was very eye opening and would advise all parents attend; the earlier you go the better!

We have utilized your services and will end up getting my daughter approximately \$25-\$30,000 in additional award/savings over her 4 year college career at the University Of Michigan. Your company also assisted us in obtaining offers from University Of Alabama for almost a full ride and numerous other private colleges for nearly 70-80% paid for offers being made via academics/grants /endowments.

Bottom line is; you spoke with us directly after our 1st awards were given and we went back for additional grants /scholarships via your awesome appeals process and again we miraculously received more monies based on your suggestions and these appeals.

I would highly recommend that anyone at the very least take advantage of the free consultation that your company provides as I am certain they will receive honest feedback from you as my family did. Frankly speaking; I don't know how my family would have been able to navigate this very complicated process without the expertise of College Planning Advisors Services' college planning assistance! I have many friends who have attempted to "go it alone" as you say and in many cases went deep in debt, dipped into their retirement or worse just ran out of money halfway through; I personally believe you can't go wrong enlisting College Planning Advisors of Michigan's assistance!

On behalf of my entire family I want to say from the bottom of our hearts; THANK YOU so much for all you have done for us! You told me in our free consultation that while your fee seems so big at the time; someday it would seem like a pittance and you were SORIGHT!

Sincerely,

Tom Shults
