Thank you for your email. We are very excited for this next chapter in all our lives as Mariah goes off to U of M this fall.

Last December, after having a bad experience with another college planner, I received a flyer in the mail and decided to go since it was literally right across the street from my house. After sitting through Tony's presentation, I knew it was where God lead me. In fact I was in the traffic jam after Tony's daughter and her friends were in that horrible accident. The College Planning Advisors team have been awesome from day one. Maggie patiently answered all my questions, no matter how many times I asked the same question in different ways lol. She also helped Mariah with her essay's during Christmas break, and I'm pretty sure she was talking to her on the phone either on New Years Eve or Day, because I remember thinking "wow even on the holidays!".

I've been impressed with College Planning Advisors since that day in December when I came to the presentation. The College Planning Advisors team continues to go above and beyond and I would recommend you and your company to everyone. Fact is, I have been spreading word about College Planning Advisors and have at least one school parent who will be contacting you.

You are welcome to give out my email address as a reference.

I look forward to working with you with my other daughter Alanah, who will be a Junior this fall. Maggie and I have talked about her training for the SAT, she'll be taking it in her Junior year.

Blessings.
