Jon,

I wanted to share with you that Corey received his bill for his 1st semester tuition and all but 2,354.00 was covered with his scholarships and student loan. He has been working full time and received quite a bit from his open house enabling him to cover this plus a new lap top plus his books. I can't express to you enough how grateful we are to have had the support of Bridgewise College Planning to walk us through this whole process. I never would have dreamed that this is where we would be 18 months ago. Thank you for your guidance and we look forward to continuing working with Bridgewise College Planning with Jonathan.

Have a great 4th of July!

Kim Schwartzkopf
